AKSHAY RAMESH

AI & ML Engineer • Full-Stack Developer

Bengaluru, India | +91 9902746555 | akshayramesh2211@gmail.com

LinkedIn | GitHub | LeetCode

PROFESSIONAL SUMMARY

Aspiring AI & ML Engineer and Full-Stack Developer with an 8.62 CGPA. Experienced in building scalable, resilient applications and data ingestion platforms. Proficient in Python, C, Java and React, with a strong foundation in cloud integration (AWS/Firebase) and asynchronous backend workflows. Passionate about applying ethical AI practices to solve complex, real-world financial and organizational challenges.

TECHNICAL SKILLS

Languages: Python, C, Java, JavaScript (ES6+), TypeScript, SQL, HTML/CSS

Frameworks: React.js, Next.js, Express.js, Vite, Tailwind CSS, Node.js

Cloud & Databases: AWS (Lambda, S3, Glue), Firebase, Supabase, PostgreSQL, MongoDB

Tools: Git/GitHub, Agile, CI/CD, REST APIs, Data Visualization, Unit Testing

PROFESSIONAL EXPERIENCE

Arealis Networks Pvt. Ltd. | *Data Intern* Sep 2025 – Nov 2025

- Engineered a high-performance data ingestion and analytics platform using Next.js, Express.js, and PostgreSQL to handle large-scale datasets.
- Architected secure cloud integrations with AWS (Lambda, S3, Glue) to automate file uploads and manage asynchronous data processing workflows.
- Developed a pixel-perfect, responsive analytics dashboard for real-time data visualization, resulting in immediate client-side UI flexibility and improved decision-making.
- Optimized system reliability and data integrity by implementing a polling mechanism for accurate real-time data reflection across the platform.
- Collaborated in an enterprise-level software development environment, prioritizing core business logic and adhering to professional coding standards.

PROJECTS

Finbuddy – AI Financial Assistant | *Lead Developer (Hackathon)* Apr 2025

- Developed a comprehensive financial tool in 24 hours providing real-time market insights and a logic-based SIP calculator.
- Integrated offline LLMs and API-based AI models to power a secure, responsive chatbot for personalized investment guidance.
- Utilized React and Vite to deliver a scalable frontend architecture capable of handling rapid user interactions.

Saankhya Academy Website | *Developer* Mar 2025

- Designed and deployed the official institution website on Firebase, ensuring 99.9% uptime and performance optimization.
- Automated content management by developing a new administrative portal for course and curriculum updates.
- Revamped the platform using a modern, scalable framework to improve load times and user engagement metrics.

EDUCATION

SJB Institute of Technology, Bengaluru, KA 2023 – 2027 (Expected)

B.E. in Artificial Intelligence & Machine Learning | CGPA: 8.62 / 10.0 (No active backlogs)

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Machine Learning, Ethical AI, Web Development.

ACHIEVEMENTS & INTERESTS

- Algorithmic Problem Solving: Solved 50+ challenges on LeetCode focusing on Data Structures and Algorithmic Optimization.
- **Technical Interests:** Machine Learning Optimization, Full-Stack Development, Ethical AI Development.
- **Personal Interests:** Fitness & Strength Training, History & Geopolitics, Culinary Science.
